# Elsie: Slides in Python in Programmable Way

Stanislav Böhm https://github.com/spirali/elsie Elsie is a slide framework based on Python

#### *Hello World* example:

```
from elsie import Slides

slides = Slides()
slide = slides.new_slide()
slide.text("Hello world!")

slides.render("output.pdf")
```

Elsie supports ...

Elsie supports ... ... fragments ...

Hello! Footer! Hello!

#### Syntax Highlighting

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```

```
#include <stdio.h>

/* Hello world program */

int main() {
    printf("Hello world!\n");
    return 0;
}
```
